SECTION 1: INTRODUCTION

1.1 Authority and Purpose

The City of Lavon, Texas, a Texas general law municipality (the “City”) has the authority under Chapter 311, Texas Tax Code, Tax Increment Financing Act, as amended (the “Act”) to designate a contiguous or noncontiguous geographic area within the corporate limits or extraterritorial jurisdiction (“ETJ”) of the City as a tax increment reinvestment zone to promote development or redevelopment of the area because the governing body of the City (the “City Council”) has determined that development or redevelopment would not occur solely through private investment in the reasonably foreseeable future, that the zone is feasible, and that creation of the zone is in the best interest of the City and the property in the zone. The purpose of the zone is to facilitate such development or redevelopment by financing the costs of public works, public improvements, programs, and other projects benefiting the zone, plus other costs incidental to those expenditures, all of which costs are authorized by the Act.

1.2 Eligibility Requirements

An area is eligible under the Act to be designated as a tax increment reinvestment zone if it is predominantly open or undeveloped and, because of obsolete platting, deterioration of structures or site improvements, or other factors, substantially impairs or arrests the sound growth of the City. The City cannot, however, designate a zone if more than thirty percent (30%) of the property in the proposed zone, excluding property that is publicly owned, is used for residential purposes, or if the total appraised value of taxable real property in the proposed zone and in existing reinvestment zones exceeds fifty percent (50%) of the total appraised value of taxable real property in the City and in industrial districts created by the City.

1.3 The Zone

The City Council created a tax increment reinvestment zone known as “*Reinvestment Zone Number One, City of Lavon, Texas*” (the “Zone”) that included approximately 574 acres of land at the time of its creation, as described on by metes and bounds on **Exhibit A** and depicted on **Exhibit B** (the “Property”). At the time of the creation of the Zone, the Property was zoned as a Planned Development - Single-Family, Commercial, and Mixed-Use. The Property was undeveloped at the time of the creation of TIRZ No. 1, and due to its size, location, and physical characteristics, development would not have occurred solely through private investment in the foreseeable future. The Property substantially impaired and arrested the sound growth of the City because it was predominately open and undeveloped due to factors such as the lack of public infrastructure and the need for economic incentive to attract development to the Zone for the purpose of providing long-term economic benefits including, but not limited to, increased real

property tax base for all taxing units in the Zone. The public improvements, and other projects were financed as contemplated by the Preliminary Plan.

1.4 Preliminary Plan and Hearing

Before the City Council adopted the ordinance designating the Zone, the City Council prepared a preliminary reinvestment zone financing plan in accordance with the Act and held a public hearing on the creation of the Zone and its benefits to the City and to the Property, at which public hearing interested persons were given the opportunity to speak for and against the creation of the Zone, the boundaries of the Zone and the concept of tax increment financing, and at which hearing the owners of the Property were given a reasonable opportunity to protest the inclusion of their Property in the Zone. The preliminary reinvestment zone financing plan described, in general terms, the public improvements that will be undertaken and financed by the Zone.

1.5 Creation of the Zone

Upon the closing of the above referenced public hearing, the City Council adopted an ordinance in accordance with the Act creating the Zone (1) upon findings by the City Council that development or redevelopment of the Property would not occur solely through private investment in the reasonably foreseeable future, (2) that the Zone is feasible, and (3) that improvements in the Zone will significantly enhance the value of all the taxable real property in the Zone and will be of general benefit to the City. Among other provisions required by the Act, the ordinance creating the Zone appointed a Board of Directors for the Zone (the "Board").

1.6 Board Recommendations

After the creation of the Zone, the Board has prepared and adopted, and recommends to the City Council this *"Reinvestment Zone Number One, City of Lavon, Texas, Final Project and Financing Plan"* (the "Final Plan"), and an agreement between the Owner (the "Owner"), Board, and City (the "Economic Development Agreement") pursuant to which the City will contribute a portion of its ad valorem tax increment attributable to new development in the Zone (the "Tax Increment") into a tax increment fund created by the City and segregated from all other funds of the City (the "TIRZ Fund") to pay to the Owner or its assigns, in accordance with the Final Plan, the costs of public improvements and other projects benefiting the Zone.

1.7 Council Action

The City Council will take into consideration the recommendations of the Board and will consider approval of this Final Plan and the Economic Development Agreement. If the Economic Development Agreement is approved, the City Council will authorize and direct its execution.

SECTION 2: DESCRIPTION AND MAPS

2.1 Existing Uses and Conditions

The Property is currently located in the County and within the corporate limits of the City and is zoned as Planned Development - Single-Family, Commercial, and Mixed-Use. The Property was undeveloped at the time of the creation of the Zone, and there was no public infrastructure to support development. Development required extensive public infrastructure that: (1) the City could not provide, and (2) would not be provided solely through private investment in the foreseeable future. A map of the Property and the proposed Zone is shown on **Exhibit B**.

2.2 Proposed Uses

The proposed use of the Property is a master planned residential development pursuant to that certain Development Agreement entered into between the City/Developer Master Development Agreement (the “Development Agreement”) dated September 30, 2004.

SECTION 3: PROPOSED CHANGES TO ORDINANCES, PLANS, CODES, RULES, AND REGULATIONS

The Property is located in the corporate limits of the City and is subject to the City’s zoning regulation. The City has exclusive jurisdiction over the subdivision and platting of the property within the Property and the design, construction, installation, and inspection of water, sewer, drainage, roadway, and other public infrastructure. No proposed changes to zoning ordinances, comprehensive plan, building codes, subdivision rules, or other municipal ordinances are planned.

SECTION 4: RELOCATION OF DISPLACED PERSONS

No persons will be displaced and in need of relocation due to the creation of the Zone or implementation of this Final Plan.

SECTION 5: ESTIMATED NON-PROJECT COSTS

Non-project costs are private funds that will be spent to develop in the Zone but will not be financed by the Zone. The list of non-project costs is shown on **Exhibit C**. The total non-project costs are estimated to be approximately \$165,135,611.

SECTION 6: PROPOSED PUBLIC IMPROVEMENTS

6.1 Categories of Public Improvements

The proposed public improvements to be financed by the Zone are further described in **Exhibit D** (the “Public Improvements”). All Public Improvements have been and shall be designed and constructed in accordance with all applicable City standards and shall otherwise be inspected, approved, and accepted by the City. At the City’s option, the Public Improvements may be expanded to include any other category of improvements authorized by the Act.

6.2 Locations of Public Improvements

The estimated locations of the proposed Public Improvements are described in the Economic Development Agreement. These locations may be revised, with the approval of the City, from time to time without amending this Final Plan.

SECTION 7: ESTIMATED PROJECT COSTS

7.1 Project Costs

The total costs for projects in the Zone include the costs of the Public Improvements and the Administrative Costs (hereinafter defined), collectively the Project Costs (hereinafter defined), are estimated to be \$1,438,980.59, as shown on **Exhibit D**.

7.2 Estimated Costs of Public Improvements

The estimated costs of the Public Improvements (the “Public Improvement Costs”) within the Zone are \$3,970,007.41 as shown on **Exhibit D**.

7.3 Estimated Administrative Costs

The estimated costs for administration of the Zone shall be the actual, direct costs paid or incurred by or on behalf of the City to administer the Zone (the “Administrative Costs”). The Administrative Costs include the costs of professional services, including those for planning, engineering, and legal services paid by or on behalf of the City. The Administrative Costs also include organizational costs, the cost of publicizing the creation of the Zone, and the cost of implementing the project plan for the Zone paid by or on behalf of the City that are directly related to the administration of the Zone. The Administrative Costs shall be paid each year from the TIRZ Fund before any other Project Costs are paid. The Administrative Costs are estimated to be \$50,000.

7.4 Estimated Timeline of Incurred Costs

The Administrative Costs will be incurred annually beginning at the time the Zone is created and through the duration of the Zone. It is estimated the Project Costs have been incurred as evidenced by submission and approval by the City of costs to construct. Approved costs are on file with the City Secretary

SECTION 8: ECONOMIC FEASIBILITY

8.1 Feasibility Study

For purposes of this Final Plan, economic feasibility was provided with the creation of the Zone in the Preliminary Project and Finance Plan and is shown on **Exhibit F** (the "Feasibility Study"). This evaluation focused on only direct financial benefits (i.e. ad valorem tax revenues from the development of Public Improvements in the Zone). Based on the Feasibility Study, during the term of the Zone, new development (which would not have occurred but for the Zone) was to generate approximately \$370,528,378 by year 13 (FY 2019) in total new City real property tax revenue, but has only generated \$116,001,759 as of the filing of the 2019 TIRZ State Comptroller Report.

The Feasibility Study showed a portion of the new real property tax revenue generated by the Zone would be retained by the City and or the County. The remainder of the new real property tax revenue generated within the Zone was available to pay Project Costs, up to the maximum contribution which is estimated at \$1,438,980.59 less administrative costs (the "Maximum Contribution") to be further defined in the Economic Development Agreement, until the term expires or is otherwise terminated. One hundred percent (100%) of all taxing revenues generated for other taxing entities by the new development within the Zone will be retained by the respective taxing entities. Upon expiration or termination of the Zone, one hundred percent (100%) of all tax revenue generated within the Zone will be retained by the respective taxing entities not participating in the Zone. Based on the foregoing, and the other information contained in the Preliminary Project and Financing Plan, the feasibility of the Zone was demonstrated.

SECTION 9: ESTIMATED BONDED INDEBTEDNESS

No bonded indebtedness issued by the City pursuant to the Act is contemplated.

SECTION 10: APPRAISED VALUE

10.1 Current Appraised Value

The current total appraised value of taxable real property in the Zone is \$116,001,759 for FY 2019. Upon creation, the \$5,298,535 which represents the Tax Increment Base, (the “Tax Increment Base”) of the Property and is determined by the Collin Central Appraisal District in accordance with Section 311.012(c) of the Act.

10.2 Estimated Captured Appraised Value

The amount of the Tax Increment for a year during the term of the Zone is the amount of property taxes levied and collected by the City for that year on the captured appraised value of the Property less the Tax Increment Base of the Property, (the “Captured Appraised Value”). The Tax Increment Base of the Property is the total taxable value of the Property for the year in which the Zone was designated, as described in **Section 10.1** above. It is estimated that upon expiration of the term of the Zone, the total Captured Appraised Value of taxable real property in the Zone will be \$110,703,224 as shown on **Exhibit F**. The actual Captured Appraised Value, as certified by the Collin Central Appraisal District will, for each year, will be used to calculate annual payment by the City into the TIRZ Fund pursuant to this Final Plan.

SECTION 11: METHOD OF FINANCING

Pursuant to the Development Agreement shown on **Exhibit G**, the Owner has paid, and will in the future pay, those Project Costs attributable to the Public Improvements and will construct or cause to be constructed the Public Improvements. This Final Plan shall obligate the City to pay to the Developer funds on deposit in the TIRZ Fund as of March 31, 2020 less Administrative Costs. After the Administrative Costs have been paid, funds in the TIRZ Fund shall next be used to pay the Economic Development Agreement balancing. All payments of Project Costs shall be made solely from the TIRZ Fund and from no other funds of the City unless otherwise approved by the governing body, and the TIRZ Fund shall only be used to pay the Project Costs in accordance with this Final Plan and the Economic Development Agreement. The City may amend this Final Plan in compliance with the Economic Development Agreement, including but not limited to, what is considered a Project Cost.

SECTION 12: DURATION OF THE ZONE, TERMINATION

12.1 Duration

The TIRZ began in October 2006 and will terminate when all obligations are met.

APPENDIX B – MAP

Reinvestment Zone Boundaries

APPENDIX C – LIST OF NON-PROJECT COSTS

Non-Project Costs include all builder's costs to construct single family vertical construction homes within the Zone from 2006 until 2019.

APPENDIX D – LIST OF PROJECT COSTS

TIF Project Costs

TIF project cost principal items, not to exceed \$2,700,000, will be selected from this list of candidate public improvement projects. If Collin County participates in the TIF fund, the project cost principal amount and the project cost interest amount may be increased in accord with the ability of County deposits to reimburse additional costs

(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)	(i)	(j)
Public Improvements		Cost by Fiscal Year (Years Ending September 30)							
	Principal Cost	2006	2007	2008	2009	2010	2011	...	Sum
Roads and paving	\$7,000,000								
Drainage and wastewater management	\$6,000,000								
Total before limitation	\$13,000,000

Schedule 8:
TIF Fund Sources and Uses of Cash
(Debt Service Schedule)

Assumptions:
Annual deposits to the TIF fund and annual cash advances for project cost overruns are from separate schedules.

In this schedule, items are assumed to occur mid-year.

Readers should note that the schedule may not balance for the year of approval and any

excess cash in the schedule may be used for other purposes.

Annual interest paid on cash advances: 2.50% (2.50% is the schedule interest rate compounded annually)

Annual interest on TIF fund cash advances: 2.50% (Actual rate may differ)
