Re: Phase II MS4 Annual Report Transmittal for City of Lavon MS4
TPDES Authorization: TXR040600

Dear Team Leader:

This letter serves to transmit the required annual report for the Texas Pollutant Discharge Elimination System Small Municipal Separate Storm Sewer System General Permit, Authorization Number TXR040600 for the City of Lavon MS4.

The annual report is for Year-1. The reporting period's beginning 01/01/2024 and ending 12/31/2024.

A separate Notice of Change has not been submitted based on the fact that changes have not been proposed for the next permit year.

As required by the general permit, a copy of the report has been mailed to the TCEQ's Regional Office 4 in Fort Worth, Texas.

Sincerely,

David Carter
Director of Public Works

Phase II (Small) MS4 Annual Report Requirements and Template 2019 TPDES General Permit Number TXR040000

Within 90 days of the end of each reporting year, operators of regulated Phase II Municipal Separate Storm Sewer Systems must submit an annual report to the Texas Commission on Environmental Quality. The reporting year may be the 12 months concurrent with the permit effective date, the permittee's fiscal year, or the calendar year. The reporting year selected must be identified in the original permit application submitted and remain consistent throughout the entire 5-year permit term. The annual report must describe activities conducted during the previous reporting year. If two or more MS4s share a common Stormwater Management Program (SWMP), all permittees must contribute to a system-wide annual report. Each permittee must sign and certify the annual report in accordance with 30 TAC §305.128 (relating to Signatories to Reports).

Report Content

Refer to Part IV,B.2 of the MS4 General Permit TXR040000 for annual report requirements.

Submit the annual report with a cover letter to ensure that the report reaches the Stormwater Team. See cover letter template (Example 5) of the instructions. The annual report must be submitted to the following address:

Texas Commission on Environmental Quality
Stormwater Team Leader (MC-148)

P.O. Box 13087
Austin, Texas 78711-3087

Note: An annual report must be submitted even if the SWMP has not yet been approved by the TCEQ. A copy of the annual report must also be submitted to the appropriate TCEQ regional office.

In addition, if the permittee has a public website, the SWMP and annual report, or a summary of the annual report, must be posted on the permittee's website. The SWMP

must be posted no later than 30 days after the approval date, and the annual report no later than 30 days after the due date.

A. General Information

1. Provide the:

- assigned authorization number TXR040{XXX}
- reporting year (1, 2, 3, 4, or 5)
- reporting option selected (i.e. calendar year, permit year, or fiscal year with last day of fiscal year [MM/DD])
- beginning and end dates (MM/DD/YYYY to MM/DD/YYYY) of the annual reporting period
- MS4 operator level:
 - traditional small MS4s – level is based on the population served within the 2010 Urbanized Area (See Part II.A.5 of TXR040000 to determine MS4 level)
 - non-traditional small MS4s – *all* non-traditional small MS4s are categorized as *Level 2* regardless of population served within the Urbanized Area. These include counties, drainage districts, transportation entities, military bases, universities, colleges, correctional institutions, municipal utility districts, and other special districts
- name of the permittee (owner/operator of the MS4, i.e. municipality, water district, etc.)
- name, telephone number, mailing address, and e-mail address for the appropriate contact person

B. Status of Compliance with the MS4 GP and SWMP

The purpose of the annual report is to inform the TCEQ of the status of compliance with permit conditions and the approved SWMP, including the appropriateness of each best management practice (BMP) and the progress towards achieving the measurable goals for each BMP utilized or implemented during the reporting year. Please model the reported information after the examples provided.

1. The report must include the status of compliance with permit conditions according to Part IV and V of the permit. Include compliance with the TCEQ-approved SWMP, compliance with recordkeeping and reporting requirements, compliance with permit eligibility requirements, and compliance with conducting an annual review of its SWMP in conjunction with preparation of the annual report as required in Part II E.4.

2. Each MS4 is required to assess the appropriateness of each BMP in reducing the discharge of pollutants to the maximum extent practicable (MEP). Provide a detailed assessment of the appropriateness of the selected BMPs, including whether any of the selected BMPs are not appropriate. This information may be included in a tabular format as provided in the form (**see Example 1 – BMP Status**).
3. Describe progress towards achieving the goal of reducing the discharge of pollutants to the maximum extent practicable (MEP). If no progress was made or the BMP did not result in a reduction in pollutants, provide an explanation. This information must be presented in a tabular format as provided in the form (**see Example 2 – Pollutant Reduction Analysis**).
4. Measurable goals are objective markers or milestones the MS4 will use to track the progress and effectiveness of BMPs in reducing pollutants to the MEP. Provide an assessment of the appropriateness of the implementation of the measurable goals of each minimum control measure (MCM) and an evaluation of the success of implementation, including any obstacles or challenges in meeting the SWMP schedule, etc. (**see Example 3 – Measurable Goals Status**).

C. Stormwater Data Summary

Provide a summary of the results of information collected and analyzed during the reporting period, including monitoring data used to assess the success of the program at reducing the discharge of pollutants to the MEP. For example, did the MS4 conduct monitoring of stormwater quality, conduct visual inspections, clean the inlets, look for illicit discharge, etc..

D. Impaired Waterbodies and Total Maximum Daily Loads

If the receiving water body is listed as impaired in the latest Clean Water Act 303(d) list, or has an approved TMDL and is listed in the most recently approved **Texas Integrated Report Index of Water Quality Impairments**, refer to Part II.D for additional information about limitations on permit coverage, compliance with water quality standards, TMDL compliance requirements, and prohibited discharges (Edwards Aquifer Recharge Zone, specific watersheds, etc.).

Impaired waters are those that do not meet applicable water quality standards and are listed in the latest Clean Water Act 303(d) list or in the latest Texas Integrated Report Index of Water Quality Impairments. Pollutants of concern are those for which the water body is listed as impaired or has an approved TMDL. New sources or new discharges of the pollutant(s) of concern to impaired waters are not authorized by the permit unless otherwise allowable under 30 TAC Chapter 305 and applicable state law.

To determine if your receiving water has been listed as impaired, refer to the most recent **Texas Integrated Report Index of Water Quality Impairments** on the TCEQ website at < [Texas List of Impaired Waters](#) >.

Categories 4 and 5 together comprise the list of all impaired waters. Category 4 includes impaired waters for which TMDLs have already been adopted, or for which other management strategies are underway to improve water quality. Category 5 of the Integrated Report comprises the 303(d) List.

A TMDL is the maximum amount of a water quality contaminant that can be discharged into a body of surface water on a daily basis without causing an exceedance of surface water quality standards. For more information about TMDLs go to: < [TMDL Program](#) >.

For specific information on segments with TMDLs adopted by the TCEQ go to: < [Segments with TMDLs](#) >.

Note: Discharges of pollutant(s) of concern to impaired water bodies for which there is a TMDL implementation plan (I-Plan) are not eligible for coverage under this general permit unless they are consistent with the approved TMDL and the I-Plan. In order to be eligible for permit coverage, MS4 operators must incorporate into their SWMP the limitations, conditions, and requirements applicable to their discharges, including monitoring frequency and reporting as required by TCEQ rules. For discharges not eligible for coverage under this general permit, the discharger must apply for and receive an individual TPDES permit.

1. Determine each year if any receiving water body within the permitted area was added to the latest EPA-approved 303(d) list or the *Texas Integrated Report of Surface Water Quality for CWA Sections 305(b) and 303(d)*. Within two years following the approval date of the new list(s) of impaired waters, include any newly listed waters in the annual report and SWMP.
2. If applicable, explain in the worksheets any activities taken to address the discharge to impaired waterbodies, including any in-stream or outfall sampling results or other available data (include the source of the data) and a summary of the small MS4's BMPs used to address the pollutant of concern. Data may be acquired from the TCEQ, local river authorities, partnerships, and/or other local efforts as appropriate.
3. Include information about implementing targeted controls as required in Part II. D.4(a).
4. Report the benchmark and assessment activities. Annual reports should include the benchmark and the year(s) during the permit term that the MS4 conducted additional sampling or other assessment activities as required in Part II.D.4(a).

5. Add an analysis of how the selected BMPs will be effective in contributing to achieve the benchmark as required in Part II.D.4(a)(2).
6. Implement focused BMPs to address impairment for bacteria as required in Part II.D.4(a)(5).
7. Assess progress in achieving the benchmark as required in Part II.D.4(a)(6).

E. Stormwater activities next reporting year

Use the table provided to describe any stormwater activities the MS4 operator has planned for the next reporting year as required in Part II.B.2(d).

F. SWMP Modifications and Additional Information

1. All permittees shall annually review, and update as necessary, the SWMP and MCM implementation procedures required by Part III.A.2 and Part IV.B.2(e).
2. If changes have been made or are proposed to the SWMP, those modifications must be addressed in the annual report as required in Part IV.B.2 of the permit. If the TCEQ has notified you in writing that changes to the SWMP are necessary, those changes must be included in the report. Be sure to provide the following information in the explanation (**see Example 4 – SWMP Modifications**):
 - i. Describe changes made to or proposed for the SWMP during the reporting year, including changes to BMPs, measurable goals, dates, contacts, procedures, or details during the permit year.
 - ii. If changes include additions or substitutions of BMPs, include a written analysis explaining why the original BMP is ineffective or not feasible, and why the replacement BMP is expected to achieve the goals of the original BMP.

Note: A Notice of Change (NOC) is required if revisions are proposed to a SWMP already approved by the TCEQ. If the initial SWMP has not been approved, submit a letter describing the change(s) so that information may be considered during the SWMP review process. **If an NOC is required, it must be submitted separately to the address shown on the NOC form. Do not attach the NOC form to this report.**

G. Additional BMPs

Provide a description and schedule for implementation of additional BMPs that may be necessary, based on monitoring results, to ensure compliance with applicable TMDLs and implementation plans as required in Part IV.B.2(f).

H. Additional Information

1. Indicate if the MS4 is relying on another entity to satisfy some of the permit obligations. Include the name of the other entity and an explanation of the elements of the SWMP that the entity is responsible for implementing as required in Part IV.B.2(g). A description of the agreement or written documentation of the agreement must be included in the SWMP.
2. If permittees share a common SWMP, list all associated authorization numbers, permittee names, and SWMP responsibilities of each permittee. Add more spaces or pages if needed.
3. Indicate if this is a system-wide annual report including information for all permittees. If "Yes," all represented permittees must sign the report in accordance with signatory requirements. The regulation governing who may sign an application form is at 30 Texas Administrative Code (TAC) §305.128.

I. Construction Activities

1. Provide the number of construction activities that occurred in the jurisdictional area of the MS4 where the permittee was not the construction site operator as required in Part IV.B.2(i). This may be the actual number of Large Site Notices and Small Site Notices submitted to the MS4 operator by construction site operators.
2. Does the permittee utilize the seventh MCM related to construction? To answer "Yes," this must have been requested on the Notice of Intent (NOI) or on an NOC and approved by the TCEQ.
 - If "Yes," then provide information about the number of municipal construction activities authorized under this general permit during the reporting period and the total number of acres disturbed for municipal construction projects.

J. Certification

The annual report must be signed by a principal executive officer or ranking elected official, or by a duly authorized representative as referenced in 30 TAC §305.128. The Delegation of Signatories to Reports (TCEQ Form 20403) can be located by visiting TCEQ's < [FORMS](#) > Web page and entering the form number.

For shared SWMPs, it is acceptable to submit separate signature pages for each operator participating in the shared SWMP, along with one copy of the system-wide annual report.

All certification pages must include an original, wet ink signature. Photocopies, scanned pages, and electronic signatures cannot be accepted.

Example 1– BMP Status

MCM(s)	BMP	BMP is appropriate for reducing the discharge of pollutants in stormwater (Answer Yes or No and explain)
2: Illicit Discharge Detection and Elimination	Map all outfalls and all water bodies receiving discharges from the MS4	Yes, identified 10 new sources and eliminated 2.
2: Illicit Discharge Detection and Elimination	Perform field screening of outfalls	Yes, there was an increase in illegal discharge detection through screening.
3/4: Construction Site Control and Post-Construction Site Control	Implement stormwater ordinance for construction and post-construction runoff control	Yes, there were reductions in sanitary sewer overflows (SSOs).
5: Pollution Prevention & Good House-keeping for Municipal Operations	Train all public works and streets staff	Yes, conducted 5 educational opportunities for staff.
6. Industrial stormwater sources – if applicable	Inspect industrial facilities	Yes, there was a decrease in illegal dumping into water bodies.

Example 2 - Pollutant Reduction Analysis

MCM	BMP	Information Used	Quantity	Units	Does BMP Demonstrate a Direct Reduction in Pollutants? (Answer Yes or No and explain)
1	1.1 Public education	Utility bill stuffers	300	Brochures	No. Though this BMP does not result in a direct reduction of pollutants, educating the citizens will eventually reduce litter, hence pollutants.
2	2.4 Dry weather screening	Outfalls	20	Inspections	Yes. When illicit discharges are observed, immediate action can be taken to remove the pollutant and track the source.
3	3.3 Construction site inspection	Construction sites	5	Inspections	Yes. By inspecting the contractor-owned construction sites, we can evaluate if proper BMPs are in place to reduce sediment discharge and erosion.
4	4.8 Construction plan review	Plans	5	Reviews	No. The pollutants will be reduced over time as the permanent post-construction BMPs are utilized.

Example 3 – Measurable Goals Status

MCM	Measurable Goal(s)	Explain progress toward goal or how goal was achieved
1	Provide utility bill inserts to each utility customer at least once each year	Met goal – mailed 86,192 inserts with March monthly utility bill.
1	Conduct one public meeting or city-wide cleanup day each year	Exceeded goal- conducted one public meeting and two cleanup days.
2	Map 25% of outfalls and 50% of receiving waters during Year 1 (same as milestone)	Met goal – mapped 20 outfalls out of 80 and 3 of 5 receiving waters.
3	Perform site inspections on 25% of all active construction sites	Did not meet goal - number of construction sites in city was far above normal for the year. Inspected 20% - 137 out of 548.
3	Respond to 100% of construction complaints received	Met goal – responded to 193 of 193 construction activity complaints.
4	Review all site plans submitted for new development projects	Met goal – reviewed 127 of 127 site plans submitted.
5	Sweep 50% of roads each year	Exceeded goal – swept 80% of all city streets.
5	Send two employees each year to a stormwater training workshop	Met goal – two employees attended stormwater training this year.
6	Inspect 5 industrial facilities	Met goal – inspected 5 industrial facilities.

Example 4- SWMP Modification

MCM(s)	Measurable Goal(s) or BMP(s)	Implemented or Proposed Changes (Submit NOC as needed)
3	Measurable Goal - perform site inspections on 25% of all active construction sites	Revise goal to perform site inspections on 25% of all active construction sites, or a minimum of 50 sites per year. Submitted separate NOC on 3/14/2015.
5	Measurable Goal- update inventory list quarterly	Revised Goal – update inventory list annually. Submitted separate NOC on 3/14/2015.
1	BMP 1.8	Change the implementation schedule from January 2015 to completion in May 2015 due to staff changes. Submitted Separate NOC on 01/05/2015.
2	BMP 2.4	Delete ineffective BMP – Dye Testing, and replace with effective BMP - Smoke Testing, to identify sanitary sewer system leaks. Submitted separate NOC on 06/12/2015.

Example 5 – Cover Letter Template

Submit on letterhead, and include:

- the mail date of the letter and report;
- the MS4 name and authorization number;
- the TCEQ region number where the MS4 sent a copy of the annual report; and
- the name(s) and authorization number(s) of other MS4s contributing to the SWMP if applicable.

Letterhead

{Date of Letter}

Texas Commission on Environmental Quality
Stormwater Team Leader (MC-148)
P.O. Box 13087
Austin, Texas 78711-3087

Re: Phase II MS4 Annual Report Transmittal for {Name of Small MS4}
TPDES Authorization: TXR040 {include MS4's unique 3-digit authorization number}

Dear Team Leader:

This letter serves to transmit the required annual report for the Texas Pollutant Discharge Elimination System Small Municipal Separate Storm Sewer System General Permit, Authorization Number TXR040{XXX} for the {name of the Small MS4}.

The annual report is for Year_____ (select the appropriate number 1, 2, 3, 4, or 5). The reporting period's beginning month/day/year and ending month/day/year.

A separate Notice of Change [has been / has not been / will be] submitted based on the fact that changes [have been / have not been] proposed for the next permit year. The Notice of Change was submitted to TCEQ's Applications Review and Processing Team (MC-148): (Select the addressed used)

BY REGULAR U.S. MAIL:

Texas Commission on Environmental Quality
Applications Review and Processing Team (MC-148)
P.O. Box 13087
Austin, Texas 78711-3087

BY OVERNIGHT/EXPRESS MAIL:

Texas Commission on Environmental Quality
Applications Review and Processing Team (MC-148)
12100 Park 35 Circle
Austin, TX 78753

As required by the general permit, a copy of the report has been mailed to the TCEQ's regional office {number} in {city}, Texas.

Sincerely,

{Name and Title}

Phase II (Small) MS4 Annual Report Form

TPDES General Permit Number TXR040000

A. General Information

Authorization Number: TXR040600

Reporting Year: 1

Annual Reporting Year Option Selected by MS4:

Calendar Year: 12/31

Permit Year:

Fiscal Year: Last day of fiscal year:

Reporting period beginning date: (month/date/year) 01/1/2024

Reporting period end date: (month/date/year) 12/31/2024

MS4 Operator Level: Level 1 Name of MS4: City of Lavon MS4

Contact Name: David Carter Telephone Number: 972-843-4220

Mailing Address: 120 School Road, P.O. Box 340, Lavon, TX 75166

E-mail Address: DCarter@LavonTX.org

A copy of the annual report was submitted to the TCEQ Region: YES

Region the annual report was submitted to: TCEQ Region 4

B. Status of Compliance with the MS4 GP and SWMP

1. Provide information on the status of complying with permit conditions:
(TXR040000 Part IV.B.2)

	Yes	No	Explain
Permittee is currently in compliance with the SWMP as submitted to and approved by the TCEQ.	YES		SWMP is not required to be submitted to TCEQ this permit cycle
Permittee is currently in compliance with recordkeeping and reporting requirements.	YES		BMPs are continued from previous permit cycle SWMP for Year-1.

Permittee meets the eligibility requirements of the permit (e.g., TMDL requirements, Edwards Aquifer limitations, compliance history, etc.).	YES		
Permittee conducted an annual review of its SWMP in conjunction with preparation of the annual report	YES		

2. Provide a general assessment of the appropriateness of the selected BMPs. You may use the table below to meet this requirement (**see Example 1 in instructions**):

MCM(s)	BMP	BMP is appropriate for reducing the discharge of pollutants in stormwater (Answer Yes or No and explain)
1: Public Education & Outreach	Waste Cleanup	Yes, the annual waste cleanup in Lavon improves public awareness of the importance of pollution elimination. The waste cleanup event reduces various physical wastes from the MS4 and while encouraging business and public involvement in watershed protection.
2: IDDE	MS4 Staff Training	Yes, training of MS4 staff was employed to train staff on duties and methods to ensure compliance to the MEP.
2: IDDE	Storm Sewer Map	Yes, the MS4 existing storm sewer map is used for MS4 management, and it is a resource for tracing hazardous discharges if encountered.
3: Construction Site SW Runoff Control	Plan Review	Yes, continuing Development Review Committee reviews of erosion runoff controls on construction sites is appropriate to reduce sediment in runoff from disturbed sites.
4: Post Construction SW Management	Management Agreements	Yes, contractual maintenance agreements for privately owned stormwater conveyance & controls are necessary and beneficial for the City MS4 staff.
5: Good Housekeeping O&M	Self-Assessment	Yes, regular evaluation of the City's routine activities and assets can identify City pollution sources for protection.
6: Legal Authority	Ordinance Adoption	Yes, the adopted ordinances are appropriate, and provide the City with enforcement capacity aimed to protect MS4 surface waters from pollution.

3. Describe progress towards achieving the goal of reducing the discharge of pollutants to the MEP. If no progress was made or the BMP did not result in a reduction in pollutants, provide an explanation. Use the table below to meet this requirement (**see Example 2 in instructions**):

MCM	BMP	Information Used	Quantity	Units	Does the BMP Demonstrate a Direct Reduction in Pollutants? (Answer Yes or No and explain)
1	5: Waste Collection Event	Collected waste	1	Collection Event	Yes, two waste events were held for removed from the MS4, including hazardous waste, electronics, tires, batteries, and metal.
3	13: Construction Site Inspection	Construction Site Inspections	14	Sites	Yes, ensuring that the contractors install appropriate BMP control measures reduces sediment transported in runoff. Sites were inspected weekly and after rainfall events.
5	17: Self-Assessment	Municipal Activities	1	BMPs	Yes, the City acquired skid-steer mounted broom sweeper.
1&2	8: Public SW Reporting	Online Reporting Tool	0	Public Concerns	Yes, although no stormwater pollution concerns were reported in 2024.
5	16: Contractor Oversight	Agreements	0	Agreement	Yes, although no new City-contractor agreements were made in 2024, existing contractor agreements contribute to pollution reduction.

4. Provide the measurable goals for each of the MCMs, and an evaluation of the success of the implementation of the measurable goals (**see Example 3 in instructions**):

MCM(s)	Measurable Goal(s)	Explain progress toward goal or how goal was achieved. If goal was not accomplished, please explain.
1	(1) Distribute Stormwater Flyers to City Account Holders	Goal Met – Account holders were provided informational stormwater flyer with utility bills in 2024.
1	(2) City Employee Training	Goal Met – One Stormwater video was emailed to all City employees in 2024.
2,3	(3) MS4 Staff Training	Goal Met – Training was provided to MS4 staff. No new employees were trained.
5	(4) O&M Personnel Training	Goal Met – Good Housekeeping training was provided to O&M personnel.
1	(5) Waste Cleanup	Goal Met – One trash collection event was held for the public. Hazardous wastes and cooking oils were received.
1	(6) Post SWMP on Website & Public Notice	Goal Met – Lavon's website was updated in 2025 to post the SWMP for the new permit cycle.
1	(7) Website Education	Goal Met – Lavon's website stormwater education page was updated in 2024.
1,2	(8) Public Stormwater Reporting	Goal Met – Reporting tools continue to be available.
2	(9) IDDE Program Summary	Goal Met – the IDDE procedure document will be reviewed under the new general permit.
2	(10) IDDE Enforcement	Goal Met – City is dedicated to responding to pollution discoveries or concerns, although no illicit discharges were discovered in 2024.
2	(11) Storm Sewer Map	Goal Met – The Stormwater Map was updated in 2024.

3	(12) Construction Site Erosion Control/ Site Plan Review	Goal Met – All construction site plans & SWP3(s) in the MS4 were reviewed by the Development Review Committee. The Site Plan Review Checklist continues to be employed.
3	(13) Construction Site Inspection & Enforcement	Goal Met – All Construction sites in the MS4 were inspected for erosion control BMPs. Follow-up inspections were also performed on a weekly basis and after rainfall events. The Construction Stormwater Field Inspection Report & SWP3 protocol documents continue to be employed.
4	(14) Post Construction SW Management	Goal Met –Development Agreements are in place to maintain stormwater controls.
5	(15) Inventory Facilities & Stormwater Controls	Goal Met – The Permittee-Owned Inventory list was carried over to the new permit cycle.
5	(16) Contractor Requirements & Oversight	Goal Met – Oversight Procedures document continues to be employed and will be reviewed to incorporate TCEQ suggested changes this year.
5	(17) O&M Self Assessment & BMPs	Goal Met – The City minimized chemicals and stockpiles kept on hand. Pollution preventions measures will be reconsidered in Year-1 to include two elected under new General Permit.
2,3,4	(18) Legal Authority	Goal Met – the City maintains a 'blanket' SWMP ordinance which provides authorities required by the General Permit. No enforcement actions were executed in 2024.

C. Stormwater Data Summary

Provide a summary of all information used, including any lab results (if sampling was conducted) to assess the success of the SWMP at reducing the discharge of pollutants to the MEP. For example, did the MS4 conduct visual inspections, clean the inlets, look for illicit discharge, clean streets, look for flow during dry weather, etc.?

Sampling was not required to be conducted. MS4 staff checked & cleared debris from culvert inlets as required. Visual inspections were conducted as MS4 staff was deployed to the field. Construction sites in the MS4 were inspected weekly and following rainfall events. These MS4 staff duties have contributed to the ongoing reduction of stormwater pollutants to the maximum extent practicable.

D. Impaired Waterbodies

1. Identify whether an impaired water within the permitted area was added to the latest EPA-approved 303(d) list or the Texas Integrated Report of Surface Water Quality for CWA Sections 305(b) and 303(d). List any newly-identified impaired waters below by including the name of the water body and the cause of impairment.

According to the 2024 Texas Integrated Report 303(d), neither Lake Lavon (0821) or Lake Ray Hubbard (0820) is impaired.

2. If applicable, explain below any activities taken to address the discharge to impaired waterbodies, including any sampling results and a summary of the small MS4's BMPs used to address the pollutant of concern.

Not Applicable

3. Describe the implementation of targeted controls if the small MS4 discharges to an impaired water body with an approved TMDL.

Not Applicable

4. Report the benchmark identified by the MS4 and assessment activities:

Benchmark Parameter (Ex: Total Suspended Solids)	Benchmark Value	Description of additional sampling or other assessment activities	Year(s) conducted
		<u>Not Applicable</u>	

5. Provide an analysis of how the selected BMPs will be effective in contributing to achieving the benchmark:

Benchmark Parameter	Selected BMP	Contribution to achieving Benchmark
	<u>Not Applicable</u>	

6. If applicable, report on focused BMPs to address impairment for bacteria:

Description of bacteria-focused BMP	Comments/Discussion
<u>Not Applicable</u>	

7. Assess the progress to determine BMP's effectiveness in achieving the benchmark.

For example, the MS4 may use the following benchmark indicators:

- number of sources identified or eliminated;
- number of illegal dumpings;
- increase in illegal dumping reported;
- number of educational opportunities conducted;
- reductions in sanitary sewer flows (SSOs); /or
- increase in illegal discharge detection through dry screening.

Benchmark Indicator	Description/Comments
<u>Not Applicable</u>	

E. Stormwater Activities

Describe activities planned for the next reporting year:

MCM(s)	BMP	Stormwater Activity	Description/Comments
1	1b	Social Media Posts/ Campaign	Lavon elected Quarterly Social media posts about stormwater pollution under the new General Permit.
1	1c	Mark, Maintain & Track markings on Stormwater inlets.	Lavon elected to mark stormwater inlets under the new General Permit, which is a new BMP that the City has already initiated.
2	2a	Watershed Clean-up Event with Public	A new clean-up event will be created to involve public in pollution remediation.
2	2b	Educational Display stormwater booth staffed for public	A new educational display will be created and shared with public to increase awareness for stormwater pollution reduction.
6	6g	Pollution Prevention Measures for Good Housekeeping	In addition to existing BMPs, the City elected to capture pollutants during Bridge Maintenance and place barriers around deicing chemical storage areas (options in the new GP)

F. SWMP Modifications

1. The SWMP and MCM implementation procedures are reviewed each year.

☒ Yes ☐ No

2. Changes have been made or are proposed to the SWMP since the NOI or the last annual report, including changes in response to TCEQ's review.

☐ Yes ☒ No

If "Yes," report on changes made to measurable goals and BMPs:

MCM(s)	Measurable Goal(s) or BMP(s)	Implemented or Proposed Changes (Submit NOC as needed)
		None, new permit cycle SWMP.

Note: If changes include additions or substitutions of BMPs, include a written analysis explaining why the original BMP is ineffective or not feasible, and why the replacement BMP is expected to achieve the goals of the original BMP.

3. Explain additional changes or proposed changes not previously mentioned (i.e. dates, contacts, procedures, annexation of land, etc.).

G. Additional BMPs for TMDLs and I-Plans

Provide a description and schedule for implementation of additional BMPs that may be necessary, based on monitoring results, to ensure compliance with applicable TMDLs and implementation plans.

BMP	Description	Implementation Schedule (start date, etc.)	Status/Completion Date (completed, in progress, not started)
	<u>Not Applicable</u>		

H. Additional Information

1. Is the permittee relying on another entity to satisfy any permit obligations?

☐ Yes ☒ No

If "Yes," provide the name(s) of other entities and an explanation of their responsibilities (add more spaces or pages if needed).

Name and Explanation:

- 2.a. Is the permittee part of a group sharing a SWMP with other entities?

☐ Yes ☒ No

2.b. If "yes," is this a system-wide annual report including information for all permittees?

☐ Yes ☐ No

If "Yes," list all associated authorization numbers, permittee names, and SWMP responsibilities of each member (add additional spaces or pages if needed):

Authorization Number: _____ Permittee: _____

I. Construction Activities

1. The number of construction activities that occurred in the jurisdictional area of the MS4 (Large and Small Site Notices submitted by construction site operators):

Fourteen (14)

- 2a. Does the permittee utilize the optional seventh MCM related to construction?

☐ Yes ☒ No

- 2b. If "yes," then provide the following information for this permit year:

The number of municipal construction activities authorized under this general permit	
The total number of acres disturbed for municipal construction projects	<u>Not Applicable</u>

Note: Though the seventh MCM is optional, implementation must be requested on the NOI or on a NOC and approved by the TCEQ.

J. Certification

If this is this a system-wide annual report including information for all permittees, each permittee shall sign and certify the annual report in accordance with 30 TAC §305.128 (relating to Signatories to Reports).

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
